Your ref. No. A 340-22/DC dated 16.11.22
from the Deputy Commissioner, Hassan

Reply

The amount subscribed for the Construction of the building referred was not only from the public but also from the municipality. Since the municipality was constructed in the year 1903. Since then the municipality has been bearing both the costs of the annual repairs and the pay of the Peon sanctioned for the buildings and the expenditure incurred for the peon amounts to nearly Rs.

On the proposal of the council in their meeting held on 10-8-1922 with a view to meet the cost of its maintenance the fees as per rates given in the annexed extracts of the proceedings of the meeting of that date have been revised & given effect to from 15th September 1922.

There are some additions which have yet to be made to the buildings viz., compound wall and a latrine. Funds are being sanctioned from time to time for these purposes by the municipality.

It will be seen under the above circumstances that the levy of fees by the municipality to meet the recurring charges to some extent is justified.

Recommended for early disposal
Yours faithfully
